SUMMARY

Full Stack Developer specializing in Spring Boot microservices, REST API integration, and database management (MySQL/Hibernate). Skilled in debugging, optimizing performance, and building seamless user interfaces from concept to deployment.

CERTIFICATIONS & TRAINING

Techpanda	Apr 2026 – Aug 2026
<i>Java Full Stack Development Certification</i>	<i>T. Nagar, Chennai</i>
- Hands-on training in Core Java, Spring Boot, Spring MVC, JPA, Hibernate, and MySQL. - Developed dynamic front-end user interfaces using React and built RESTful backend APIs using Maven and Git.	

EXPERIENCE

Genxlead Solution	Nov 2025 – Mar 2026
<i>Email Marketing Trainee</i>	<i>Vanagaram, Chennai</i>
- Optimized 10+ PowerMTA mailing servers by managing DNS records (A, MX, SPF, DKIM, PTR) and traffic routing to maximize deliverability and high availability. - Debugged complex SMTP and Linux network issues via log analysis, collaborating with infrastructure teams to resolve critical delivery failures under tight deadlines.	
Fabindia Limited	Oct 2024 – Oct 2025
<i>Customer Relationship Executive</i>	<i>Anna Nagar, Chennai</i>
- Managed POS cash, card, and UPI transactions, ensuring precise daily closing and accounting. - Generated and distributed daily EOD reports and email summaries to the management and accounting teams.	
Shiash Infotech	Aug 2024 – Nov 2024
<i>Java Full Stack Intern</i>	<i>Shozhinganallur, Chennai</i>
- Engineered a secure Java/Spring Boot gateway using AES/RSA encryption and token authentication for multi-level organizational data exchange over RESTful APIs. - Designed MySQL databases with JDBC/Hibernate and collaborated in Agile workflows using Git to optimize performance, debug issues, and ship core backend logic on schedule.	

PROJECTS

Car Rental Management System	<i>Spring Boot MySQL React</i>
- Built a full-stack car rental system using Spring Boot, React, and MySQL to manage vehicles, bookings, users, and rental workflows. - Developed RESTful APIs with JWT authentication and role-based access control to secure backend endpoints for users and administrators. - Integrated JPA/Hibernate to handle complex database entity relationships and built a responsive React frontend for vehicle browsing and booking management.	

Face Recognition Attendance System

Python | OpenCV

- Developed an AI-powered attendance tracking system using Python and OpenCV, automating student identification for 100+ students per session.
- Implemented real-time face recognition and database integration to replace manual roll-calls and improve attendance accuracy.

EDUCATION

Mailam Engineering College	2020 – 2024
Bachelor of Technology (B. Tech) in Information Technology	Mailam, Tindivanam
• Relevant Coursework: Computer Science Fundamentals, Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering, Servlets & JSP. • Final Year Project: Built a Career Guidance Recommendation System in Python, applying machine learning-based recommendation logic and coding best practices to deliver personalized academic and career suggestions from user skills, interests, and preferences.	

SKILLS

Languages:	Java, Python, SQL
Frameworks & Libraries:	Spring Boot, REST APIs, JDBC, JPA, Hibernate, OpenCV, Servlets
Frontend:	React
Databases:	MySQL
Tools & Platforms:	Git, GitHub, Postman, VS Code, IntelliJ IDEA
Core Concepts:	Software Engineering, Software Architecture, Software Design, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Debugging, Product Development, Coding, Security
